

Golakoti Sri Ram Nishanth

nishanthgolakoti@gmail.com | +91 9347580307 | GitHub | LinkedIn | Portfolio

Summary

Computer Science undergraduate at Vellore Institute of Technology with strong foundations in Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, and Computer Networks. Skilled in Java, Python, C++, SQL, React.js, Node.js, and AWS with hands-on experience building AI-powered, cloud-based, and full-stack applications. Passionate about software engineering, problem solving, and developing scalable, user-centric solutions using modern technologies.

Education

Vellore Institute of Technology, Vellore August 2023 – Present
BTech. Computer Science and Engineering

- **CGPA:** 8.49

Narayana Jr.College, Hyderabad

May 2023

- **12th:** 78.4%

Narayana School, Hyderabad

May 2021

- **10th:** 100%

Experience

ThunderSoft India Pvt. Ltd. May 2026 – July 2026
AI/ML Intern

- Worked on AI and Machine Learning applications using Python for real-world problem solving.
- Implemented data preprocessing, model training, and performance evaluation techniques.
- Collaborated with mentors to build scalable AI solutions while following software development best practices.

Projects

TrigPlotter AWS – Python, AWS (EC2, S3, IAM), HTML, Cloud Computing

- Developed a cloud-based trigonometric graph plotting application using Python and AWS services for real-time equation evaluation.
- Designed a responsive frontend using HTML and integrated it with a Python backend for dynamic graph generation.
- Leveraged AWS cloud services to improve scalability, reliability, and application deployment.

Farm2Market – HTML, CSS, JavaScript, Responsive Web Development

- Developed a responsive web platform connecting farmers directly with buyers to improve market accessibility.
- Designed an intuitive user interface for product listing, browsing, and seamless customer interaction.
- Reduced dependency on intermediaries by providing a transparent digital marketplace for agricultural products.

College Feedback Classifier – Python, FLAN-T5, NLP, Machine Learning

- Developed an AI-powered feedback classification system using FLAN-T5 and Natural Language Processing to automatically classify student feedback.
- Implemented sentiment analysis and automated text preprocessing to generate structured insights for academic decision-making.
- Improved efficiency by reducing manual analysis while enabling scalable processing of feedback data.

Technical Skills

Programming Languages: Java, Python, C++, SQL, JavaScript

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js

Cloud & Tools: AWS (EC2, S3, IAM), Git, GitHub, VS Code, IntelliJ IDEA, Figma

Libraries & Frameworks: Pandas, NumPy, TensorFlow, XGBoost, Apache Spark, Hadoop

Leadership Experience

- **Head of Administration and Management | Sahithi Club, VIT Vellore (2024 – Present)**
 - Managed administrative operations and coordinated technical and cultural events involving multiple student teams.
 - Collaborated with cross-functional teams to ensure smooth planning, execution, and event management.
- **Organizing Committee Member | South Indian History Conference (SIHC)**
 - Assisted in planning conference activities involving faculty members, guests, and student volunteers.
 - Coordinated logistics and supported the successful execution of conference operations.

Certifications

- IBM Generative AI using Watsonx
- Python Programming Certificate
- Java Programming Certificate
- CSS Certificate
- NASA Space Settlement Contest

Languages

English, Hindi, Telugu
